Attendance: A Key to Your Student's Success

Schools can't do their job if your child is absent. Learning builds day by day. A child who misses a day of school misses a day of learning. A student who is late for school 10 minutes every day will miss 30 hours of instruction each year. Your child's success in school depends on having a solid educational background - one that can only be gained through **regular school attendance**.

The North Port St. Joe Community Youth Initiative is sponsoring **After-School Homework Assistance, Reading and Math Tutoring.**
